

NCDWR Fish Kill Summary Report

Waterbody BYRUM POND

Total Fish Mortality

Location Rolesville

500

Kill Number	Date Reported	Date Investigated	Time Investigated
RA15003	8/7/2015	8/11/2015	400
County	HUC:	Latitude	Longitude
WAKE	03020201	35.906000	-78.4475000

Species Reported

BLACK CRAPPIE
LARGEMOUTH BASS
SUNFISH

Suspected Cause	Other Species Affected	Waterbody Type	Duration	Kill Area
DO	NONE	Fresh	12 hours	5 acres
Tributaries Affected		Samples		
NONE		NONE		

Notes:

Low dissolved oxygen appeared to be the cause of the kill, due to pond turnover, which occurred during and after a storm event on 8/7/2015. At the time of investigation, the condition of the pond seemed back to normal. No signs of spills upstream of the pond were observed.
